

NEVER LET THEM SLEEP IT OFF!

If you suspect a friend or loved one has overdosed, **NEVER** let them sleep it off. Try to get them to respond. Shake them. If you can't wake them up, **IMMEDIATELY CALL 9-1-1**. If you are afraid, leave once you are sure that rescue has located them. You may be the **ONLY** person who can make a difference as to whether they **LIVE OR DIE!**

Symptoms of a drug overdose include:

- Difficult, slow or shallow breathing
- Seizures • Confusion • Erratic or no pulse
 - Abnormal "pinpoint" pupils
- Being tired, nodding off or passing out
- Dizziness • Weakness • Choking/Gurgling
 - Apathy (not caring about anything)
- Cold and clammy skin • Change in skin color
 - Nausea • Vomiting • Heavy Snoring
